

The Mid-South Hosta Society is a nonprofit educational organization, formed exclusively to promote knowledge and interest in hostas, to foster development of new and improved hosta varieties, and to encourage cultivation and usefulness of hostas in landscape.

The Mid-South Hosta Society was formed in October 1998 with approximately 50 charter members. In October 2005 the Society had 313 members. Regular meetings are held on the second Thursday in February, March, April, May, June, and October. The annual meeting is held in September that includes the election of officers. Prominent hosta experts, breeders and nurserymen are invited to speak at selected monthly meetings.

The Society conducts an annual Garden Tour and Plant Sale as our main fund raising project. Additionally we will host one or two additional tours of selected gardens in the area, and participate in area garden shows, such as the annual Kiwanis Home and Garden Show. Society members receive discounts at several area nurseries.

Our primary community project is to establish and maintain a Hosta Trail at the Memphis Botanical Gardens. To date we have planted three beds with over 300 hostas.
